

## OPERATIONAL BLUEPRINT FOR SCHOOL REENTRY 2020-21

Updated 10/30/2020

Under ODE's **Ready Schools, Safe Learners** guidance, each school<sup>1</sup> has been directed to submit a plan to the district<sup>2</sup> in order to provide on-site and/or hybrid instruction. Districts must submit each school's plan to the local school board and make the plans available to the public. This form is to be used to document a district's, school's or program's plan to ensure students can return for the 2020-21 school year, in some form, in accordance with Executive Order 20-25(10). Schools must use the [Ready Schools, Safe Learners guidance](#) document as they complete their Operational Blueprint for Reentry. ODE recommends plan development be inclusive of, but not limited to, school-based administrators, teachers and school staff, health and nursing staff, association leadership, nutrition services, transportation services, tribal consultation,<sup>3</sup> parents and others for purposes of providing expertise, developing broad understanding of the health protocols and carrying out plan implementation.

2. Please list efforts you have made to engage your community (public health information sharing, taking feedback on planning, etc.) in preparing for school in 2020-21. Include information on engagement with communities often underserved and marginalized and those communities disproportionately impacted by COVID-19.

<sup>1</sup> For the purposes of this guidance: "school" refers to all public schools, including public charter schools, public virtual charter schools, alternative education programs, private schools and the Oregon School for the Deaf. For ease of readability, "school" will be used inclusively to reference all of these settings.

<sup>2</sup> For the purposes of this guidance: "district" refers to a school district, education service district, public charter school sponsoring district, virtual public charter school sponsoring district, state sponsored public charter school, alternative education programs, private schools, and the Oregon School for the Deaf.

<sup>3</sup> Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a [government-to-government](#) basis.

Hood View's administration has reviewed the information and data collected from the school community and parent surveys. HVAS will communicate with the underserved, marginalized, and disproportionately impacted by COVID-19 to meet their needs. Hood View Adventist School collaborates with and will obtain approval from the Oregon Conference Office of Education as well as HVAS's local School Board. The goal is to have all students attend school Monday - Friday to meet their individual needs, when allowed.

3. Indicate which instructional model will be used.

Select One:

☒ On-Site Learning      ☐ Hybrid Learning      ☐ Comprehensive Distance Learning

4. If you selected Comprehensive Distance Learning, you only have to fill out the green portion of the Operational Blueprint for Reentry (i.e., page 2 in the initial template).
5. If you selected On-Site Learning or Hybrid Learning, you have to fill out the blue portion of the Operational Blueprint for Reentry (i.e., pages 3-19 in the initial template) and [submit online](https://app.smartsheet.com/b/form/a4dedb5185d94966b1dffc75e4874c8a). (<https://app.smartsheet.com/b/form/a4dedb5185d94966b1dffc75e4874c8a>) by August 17, 2020 or prior to the beginning of the 2020-21 school year.

\* **Note:** Private schools are required to comply with only sections 1-3 of the *Ready Schools, Safe Learners* guidance.

### REQUIREMENTS FOR COMPREHENSIVE DISTANCE LEARNING OPERATIONAL BLUEPRINT

*This section must be completed by any school that is seeking to provide instruction through Comprehensive Distance Learning. For Private Schools, completing this section is optional (not required). Schools providing On-Site or Hybrid Instructional Models do not need to complete this section.*

Describe why you are selecting Comprehensive Distance Learning as the school's Instructional Model for the effective dates of this plan.

In completing this portion of the Blueprint you are attesting that you have reviewed the Comprehensive Distance Learning Guidance. [Here is a link to the overview of CDL Requirements](#). Please name any requirements you need ODE to review for any possible flexibility or waiver.

Describe the school's plan, including the anticipated timeline, for returning to Hybrid Learning or On-Site Learning consistent with the *Ready Schools, Safe Learners* guidance.

Hood View Adventist School will open for on-site learning whenever allowed, according to the specified metrics requirements. Typically, the phasing-in for on-campus learning will occur over a 2- to 14-day period.

*The remainder of this operational blueprint is not applicable to schools operating a Comprehensive Distance Learning Model.*

## ESSENTIAL REQUIREMENTS FOR HYBRID / ON-SITE OPERATIONAL BLUEPRINT

*This section must be completed by any school that is providing instruction through On-Site or Hybrid Instructional Models.*

*Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section unless the school is implementing the Limited In-Person Instruction provision under the Comprehensive Distance Learning guidance.*

### 0. Health Metrics for Returning to In-Person Instruction

#### OPERATING WITHIN THE GENERAL METRICS

- ☐ The school meets eligibility for the "Safe Harbor Clause" as they were operating with in-person instruction in compliance with previous metrics, including under any prior exceptions. *Unless operating under an exception in section 0d of the **Ready Schools, Safe Learners** guidance, if the school is located in a county with metrics in the "Distance Learning" column of the metrics chart, then the school must transition to distance learning by January 4, 2021.*
- ☒ The school currently meets the General Metrics to successfully reopen for in-person instruction in an On-Site or Hybrid (On-Site and Distance Learning) model. *If this box cannot yet be checked, the school must return to Comprehensive Distance Learning but may be able to provide some in-person instruction through the exceptions noted below.*

#### EXCEPTIONS FOR SPECIFIC IN-PERSON INSTRUCTION WHERE REQUIRED CONDITIONS ARE MET

- ☒ The school currently meets the criteria required to provide limited in-person instruction (LIPI) for specific groups of students (see section 0d(1) of the **Ready Schools, Safe Learners** guidance).
- ☐ The school is small and remote (enrollment  $\leq 75$ ) and the LPHA has established that the school currently meets the criteria required for small remote schools (see section 0d(2) of the **Ready Schools, Safe Learners** guidance).
- ☐ The school currently meets the conditions required for to provide in-person instruction under the low population density, large population county exception (see section 0d(3) of the **Ready Schools, Safe Learners** guidance).
- ☐ The school is eligible for an emergency waiver for in-person instruction due to the impact of wildfires (see section 0d(4) of the **Ready Schools, Safe Learners** guidance).

### 1c. PHYSICAL DISTANCING

OHA/ODE Requirements	Hybrid/Onsite Plan
<ul style="list-style-type: none"> <li>☒ Establish a minimum of 35 square feet per person when determining room capacity. Calculate only with usable classroom space, understanding that desks and room set-up will require use of all space in the calculation. This also applies for professional development and staff gatherings.</li> <li>☒ Support physical distancing in all daily activities and instruction, maintaining six feet between individuals to the maximum extent possible.</li> <li>☒ Minimize time standing in lines and take steps to ensure that six feet of distance between students is maintained, including marking spacing on floor, one-way traffic flow in constrained spaces, etc.</li> <li>☒ Schedule modifications to limit the number of students in the building (e.g., rotating groups by days or location, staggered schedules to avoid hallway crowding and gathering).</li> <li>☒ Plan for students who will need additional support in learning how to maintain physical distancing requirements. Provide instruction; don't employ punitive discipline.</li> <li>☒ Staff must maintain physical distancing during all staff meetings and conferences, or consider remote web-based meetings.</li> </ul>	<p>See Hood View Adventist School Communicable Disease Management Plan, attached.</p> <p>Classroom Set Up:</p> <ul style="list-style-type: none"> <li>• Teachers will remove excess furniture to provide needed square footage for learning areas</li> <li>• Fabric-covered furniture will be minimized.</li> <li>• Seating shall be assigned to maximize physical distancing and minimize physical interaction.</li> </ul> <ul style="list-style-type: none"> <li>• Traffic flow - A one-way flow of traffic will be established and marked in all common areas of the school with the expectation that students and staff will be trained to follow the traffic flow pattern. The traffic flow patterns will be designated with arrows which direction to walk, 6' spacing for appropriate distancing.</li> <li>• Schedules -Students will each stay in their classroom with their cohort group for the majority of the day. If a cohort group needs to transition to another part of the building or outside, a 5-minute passing time will be scheduled for transitions of single cohort groups.</li> <li>• Student instruction on distancing protocols- All staff will be trained on the appropriate health and safety ODE guidelines on physical distancing. Teachers will be required to teach, practice, review, and reteach the ODE guidelines in their classrooms on a regular basis. This will include appropriate protocols during arrival, dismissal, hallway transitions, common areas, and recess.</li> <li>• PE &amp; recess will be provided daily for each classroom. Playground protocol will be taught for following physical distancing. Activities and games will be promoted for which physical distancing can be maximized. PE &amp; recess will be scheduled so that there is no overlap of cohort groups.</li> </ul> <p>Music class will be planned with non-wind instruments that are not shared within cohorts. Instruments will be sanitized between cohorts. If singing takes place, students will maintain 12' distancing.</p>

Additionally, schools should consider sharing explicit risk statements for instructional and extra-curricular activities requiring additional considerations (see section 5f of the **Ready Schools, Safe Learners** guidance).

A face shield may be an acceptable alternative, as stated in Section 1h of the <b>Ready Schools, Safe Learners</b> guidance. <input type="checkbox"/> Inform parents/guardians of practical changes to transportation service (i.e., physical distancing at bus stops and while loading/unloading, potential for increased route time due to additional precautions, sanitizing practices, and face coverings). <input type="checkbox"/> Face coverings or face shields for all students in grades Kindergarten and up following <a href="#">CDC guidelines</a> applying the guidance in section 1h of the <b>Ready Schools, Safe Learners</b> guidance to transportation settings.	

## 2j. CLEANING, DISINFECTION, AND VENTILATION

OHA/ODE Requirements	Hybrid/Onsite Plan
<input checked="" type="checkbox"/> Clean, sanitize, and disinfect frequently touched surfaces (e.g. door handles, sink handles, drinking fountains, transport vehicles) and shared objects (e.g., toys, games, art supplies) between uses multiple times per day. Maintain clean and disinfected ( <a href="#">CDC guidance</a> ) environments, including classrooms, cafeteria settings and restrooms. <input checked="" type="checkbox"/> Outdoor playground structures require normal routine cleaning and do not require disinfection. Shared equipment should be cleaned and disinfected at least daily in accordance with <a href="#">CDC guidance</a> . Apply disinfectants safely and correctly following labeling direction as specified by the manufacturer. Keep these products away from students. <input checked="" type="checkbox"/> To reduce the risk of asthma, choose disinfectant products on the EPA List N with asthma-safer ingredients (e.g. hydrogen peroxide, citric acid, or lactic acid) and avoid products that mix these with asthma-causing ingredients like peroxyacetic acid, sodium hypochlorite (bleach), or quaternary ammonium compounds. <input checked="" type="checkbox"/> Schools with HVAC systems must evaluate the system to minimize indoor air recirculation (thus maximizing fresh outdoor air) to the extent possible. Schools that do not have mechanical ventilation systems shall, to the extent possible, increase natural ventilation by opening windows and interior doors before students arrive and after students leave, and while students are present. Do not prop open doors that can pose a safety or security risk to students and staff (e.g., exterior doors and fire doors that must remain closed). <input checked="" type="checkbox"/> Consider running ventilation systems continuously and changing the filters more frequently. Do <u>not</u> use fans if they pose a safety or health risk, such as increasing exposure to pollen/allergies or exacerbating asthma symptoms. Consider using window fans or box fans positioned in open windows to blow fresh outdoor air into the classroom via one window, and indoor air out of the classroom via another window. Fans must not be used in rooms with closed windows and doors, as this does not allow for fresh air to circulate. <input checked="" type="checkbox"/> Consider the need for increased ventilation in areas where students with special health care needs receive medication or treatments. <input checked="" type="checkbox"/> Facilities must be cleaned and disinfected at least daily to prevent transmission of the virus from surfaces (see <a href="#">CDC's guidance on disinfecting public spaces</a> ). <input checked="" type="checkbox"/> Consider modification or enhancement of building ventilation where feasible (see <a href="#">CDC's guidance on ventilation and filtration</a>	<p>See <i>Hood View Adventist School Communicable Disease Management Plan</i>, attached.</p> <p>See <i>Hood View Adventist School Emergency Preparedness Plan</i>.</p> <ul style="list-style-type: none"> <li>• All frequently touched surfaces will be cleaned and disinfected between multiple uses and at least three times per day.</li> <li>• Cleaning products will follow the guidelines as given by the CDC, and product directions will be followed.</li> <li>• Ventilation systems will be checked and maintained monthly by maintenance staff.</li> <li>• Outdoor space will be utilized as much as possible.</li> <li>• Facilities will be disinfected daily.</li> <li>• Windows will be opened as much as possible to increase natural ventilation.</li> </ul>

## 2k. HEALTH SERVICES

OHA/ODE Requirements	Hybrid/Onsite Plan
<input checked="" type="checkbox"/> OAR 581-022-2220 Health Services, requires districts to “maintain a prevention-oriented health services program for all students” including space to isolate sick students and services for students with special health care needs. While OAR 581-022-2220 does not apply to private schools, private schools must provide a space to isolate sick students and provide services for students with special health care needs. <input checked="" type="checkbox"/> Licensed, experienced health staff should be included on teams to determine district health service priorities. Collaborate with health professionals such as school nurses; SBHC staff; mental and behavioral health providers; dental providers; physical, occupational, speech, and respiratory therapists; and School Based Health Centers (SBHC).	<p>See Hood View Adventist School Communicable Disease Management Plan.</p> <ul style="list-style-type: none"> <li>• Age appropriate hand hygiene and respiratory etiquette education will be provided to all students to endorse prevention. This includes teacher and student instruction, newsletter, and signage in the school setting.</li> <li>• Appropriate communicable disease isolation and exclusion measures will be shared and followed.</li> <li>• Staff will participate in required health services training to maintain health services practice in the school setting.</li> <li>• COVID-19 specific infection control practices for staff and students will be communicated.</li> <li>• An appropriate isolation area will be provided for sick students.</li> </ul> <p>Hood View will collaborate with volunteer health professionals as needed for training and guidance.</p>

## 2l. BOARDING SCHOOLS AND RESIDENTIAL PROGRAMS ONLY

OHA/ODE Requirements	Hybrid/Onsite Plan
<input type="checkbox"/> Provide specific plan details and adjustments in Operational Blueprints that address staff and student safety, which includes how you will approach: <ul style="list-style-type: none"> <li>• Contact tracing</li> <li>• The intersection of cohort designs in residential settings (by wing or common restrooms) with cohort designs in the instructional settings. The same cohorting parameter limiting total cohort size to 100 people applies.</li> <li>• Quarantine of exposed staff or students</li> <li>• Isolation of infected staff or students</li> <li>• Communication and designation of where the “household” or “family unit” applies to your residents and staff</li> </ul> <input type="checkbox"/> Review and take into consideration <a href="#">CDC guidance</a> for shared or congregate housing: <ul style="list-style-type: none"> <li>• Not allow more than two students to share a residential dorm room unless alternative housing arrangements are impossible</li> <li>• Ensure at least 64 square feet of room space per resident</li> <li>• Reduce overall residential density to ensure sufficient space for the isolation of sick or potentially infected individuals, as necessary;</li> <li>• Configure common spaces to maximize physical distancing;</li> <li>• Provide enhanced cleaning;</li> <li>• Establish plans for the containment and isolation of on-campus cases, including consideration of PPE, food delivery, and bathroom needs.</li> </ul> <p><b>Exception</b></p> <input type="checkbox"/> They have a current and complete RSSL Blueprint and are complying with Sections 1-3 of the <b>Ready Schools, Safe Learners</b> guidance and any other applicable sections, including Section 2L of the <b>Ready Schools, Safe Learners</b> guidance. <input type="checkbox"/> The school maintains a fully-closed residential campus (no non-essential visitors allowed), and normal day school operations are only offered remotely through distance learning.	<p>N/A</p>

## 2m. SCHOOL EMERGENCY PROCEDURES AND DRILLS

OHA/ODE Requirements	Hybrid/Onsite Plan
<input checked="" type="checkbox"/> In accordance with <a href="#">ORS 336.071</a> and <a href="#">OAR 581-022-2225</a> all schools (including those operating a Comprehensive Distance Learning model) are required to instruct students on emergency procedures. Schools that operate an On-Site or Hybrid model need to instruct and practice drills on emergency procedures so that students and staff can respond to emergencies. <ul style="list-style-type: none"> <li>• At least 30 minutes in each school month must be used to instruct students on the emergency procedures for fires, earthquakes (including tsunami drills in appropriate zones), and safety threats.</li> <li>• Fire drills must be conducted monthly.</li> <li>• Earthquake drills (including tsunami drills and instruction for schools in a tsunami hazard zone) must be conducted two times a year.</li> <li>• Safety threats including procedures related to lockdown, lockout, shelter in place and evacuation and other appropriate actions to take when there is a threat to safety must be conducted two times a year.</li> </ul> <input checked="" type="checkbox"/> Drills can and should be carried out <u>as close as possible</u> to the procedures that would be used in an actual emergency. For example, a fire drill must be carried out with the same alerts and same routes as normal. If appropriate and practicable, COVID-19 physical distancing measures can be implemented, but only if they do not compromise the drill. <input checked="" type="checkbox"/> When or if physical distancing must be compromised, drills must be completed in less than 15 minutes. <input checked="" type="checkbox"/> Drills shall not be practiced unless they can be practiced correctly. <input checked="" type="checkbox"/> Train staff on safety drills prior to students arriving on the first day on campus in hybrid or face-to-face engagement. <input checked="" type="checkbox"/> If on a hybrid schedule, conduct multiple drills each month to ensure that all cohorts of students have opportunities to participate in drills (i.e., schedule on different cohort days throughout the year). <input checked="" type="checkbox"/> Students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol after a drill is complete.	<p>Students will be instructed on safety/emergency procedures monthly.</p> <p>Monthly fire drills shall continue, with added social distancing, as appropriate/possible. Fire drills shall not exceed 15 minutes.</p> <p>Semesterly earthquake drills will be conducted, as usual, but with 6-ft. distancing.</p> <p>Semesterly safety drills (lockdown, lockout, shelter in place, etc.) shall be conducted, with modifications. These shall not exceed 15 minutes in duration.</p> <p>All students shall wash their hands or use an approved hand sanitizer after drills.</p>
